

TASS SPONSORS UWFSAE

In the spring of 2008, TASS signed on as a sponsor of University of Washington Formula SAE (Society of Automotive Engineers) race team.

Competing at Formula SAE West against over eighty schools from around the world, UW was in strong contention for at least a top five finish when a mechanical failure in the final event saw them finish in 17th overall.

Several UWFSAE alumni are currently working at TASS and actively supporting the team in their quest to reach the top of the podium.
